# KANDY GRASS FOR CONDOS

KANDY has developed its own proprietary approach to give Condo dwellers the warm and luxurious back yard look and feel without any worry about condo rules.

KANDY Grass is rolled out on top of, and attached to, a support system that promotes air flow and facilitates drainage.

## GRASS SPECIFICATIONS

- 1.95" Blade Height, polyethylene & monofilament with thatch construction
- Heat & Frost Resistant
- UV Stabilized
- Non-flammable
- Face Weight: 95 oz
- Machine Gauge 3/8"
- Weight: 1.5 lbs/sq foot
- Drainage rate: 28" of rain per hour

## MAINTENANCE

Rinse and 'rake' as needed to keep clean and limit matting.

As with all KANDY solutions for condo balconies, nothing is adhered or affixed to the building envelope, floor or walls. This ensures that the building envelope is not put at risk in any way and there is adherence to condo rules and by-laws.
